## WALL STREET IS LISTLESS TODAY

Little Action Record in New York Exchange, the Amount of Deals Hitting Low Mark.

New York, Nov. 22.—The stock market moved listlessly through the morning, sales of the first hour barely aggregating 150,000 shares, which establishes a minimum of operations for several months. Of this total such issues as Mexican Petroleum and Distillers' securities each contributed more than one-half of the volume. United States Steel, Coppers and war shares improved over early quotations, the former on prospects of another advance in the metal. United Fruit gained 4 1/2 points at 181 1/2, and other unclassified stocks were higher. Rails reflected a further lack of demand. Bonds were firm.

Specialties were the sole features of interest on the resumption of trading today. Texas company on its initial advance of 3 1/2, scored a new record at 204. General Motors was 5 higher at 426 and United States Industrial Alcohol 4 1/2 at 118 1/2. California and Mexican Petroleum gained a point or more with similar advances in American Locomotive, Baldwin Locomotive, Lackawanna Steel, American Car and United Fruit, while Marine preferred rose 2 1/2 to 71 1/2. Westinghouse lost a point and United States Steel lagged. New Haven and Union Pacific were firm features among the railroads.

## DECIDED BREAK IN WHEAT PRICES

News of Blockade of Greece and Fair Weather Reports Places List On Toboggan.

Chicago, Nov. 22.—Wheat suffering a decided break in value today owing to a larger receipts northwest, lower cable quotations, predictions of continued favorable weather and reports that a complete blockade of Greece was in operation. Opening prices here, which ranged from 1/2 to 1 1/4 c down, were followed by a slight rally, then a setback lower than before.

The huge increase of the United States visible supply appeared to have been fully anticipated. After the total was announced, shorts tried to cover, but found no offerings. The result was a quick rally in prices. Closing quotations were strong at 1/4 c to 1/2 c net advance, and May at 1.03 1/2, and May at 1.06 1/2.

Corn gave way with wheat. The market also was influenced by prospects of larger receipts. After opening 1/4 to 1/2 c lower, prices underwent a little additional decline.

Corn recovered later when wheat took an upturn. The close was unsettled at a shade off to 1/4 c, compared with Saturday's finish.

Oats followed other cereals down-grade.

Provisions rose on account of the average weight of hogs arrivals.

## OPEN JOKE CONTEST FOR MOLINE PUPILS

Contests for jokes and photos, which are to be the feature of the 1915 high school "M." have now opened, according to announcement by Edmund Stoff, editor-in-chief. The competition will extend till next April and prizes will then be awarded those handing in the greatest number of accepted jokes and photos and also to those submitting those judged to be the best.

Several novel features are to be inaugurated in the book this year, among them being a number of cartoons. Several pupils in the school have ability in this line and they are being urged to make sketches of people and events which have local interest in the school. A number of new ideas are to be put into the title pages also.

## CHIEF MILLER SAYS SUNDAY WAS QUIET

Yesterday was the quietest Sunday for months in police circles, according to a statement made today by Chief of Police Phil Miller.

"Not an arrest was made during the day," said the chief. "Everything was lovely all over town and the police did not have much more to do than to walk around their beats and report to the station every half hour. We've got them all scared," the chief added, meaning crooks, bums and other undesirable.

## LOCAL MACHINIST IS NOW RELIEVED

W. H. Parks Makes Statement About His Recent Improvement and How It Came About.

TANLAC HELPED CONDITION.

W. H. Parks, a well known machinist who resides at 1263 1/2 Second avenue, Rock Island, made a most interesting statement recently in connection with Tanlac, the new medicine that is now being introduced in this city. In speaking of the benefits which he had derived from the use of Tanlac, Mr. Parks said:

"Tanlac has certainly proved a great remedy in my case and has brought me much relief from an old time trouble. Before I began taking this new medicine I suffered from catarrh of the stomach which kept my system in a badly rundown condition and sometimes made me sick all over. 'When I would lie down my head would fill up and I could hardly get my breath. I would be all choked up when I would get up in the morning and could hardly eat my breakfast. I had very little appetite at any time and the few things that I did enjoy did not seem to agree with me very well. 'I tried a number of remedies to regain my health, but nothing brought me any relief. I was speaking to a friend of mine recently about my condition and was told to try a bottle of Tanlac, which was helping a great many other people in the same condition that I was. I bought a bottle as my friend suggested and began taking it.

"Now I feel like another person. My head is clearer and I sleep better at night. My appetite has improved and my food tastes natural again. I feel stronger and better than I have in a long time. I think Tanlac is a fine medicine for a trouble like I had and that it will help others who will give it a fair trial."

Tanlac, the "master medicine," referred to in the above statement, is now being sold in Rock Island at Riess' pharmacy, where the merits of this excellent preparation will be gladly explained to you upon request. —(Adv.)

## The Day in Davenport

## Condemns School as Fire Hazard.

The second school building to be condemned by H. H. Bye of Des Moines, state inspector of safety appliances, is the Jefferson school at Sixth and Warren streets, and the inspector has stated that the building, as regards possible loss of life in a fire is in worse condition than the Harrison school building at Fourth and Ripley streets. The building, listed as a three-story structure, according to the laws governing school buildings and fire safety, is dangerous to a marked degree, according to the inspector. The only two stairways in the school come together within a few feet of each other on the ground floor. There are no fire escapes on the building, and these will be immediately installed by orders issued by the inspector. "There is no doubt but there would be a great loss of life should the Jefferson school catch fire while school was in session," said the inspector.

## Engineer Is Badly Hurt.

Charles Mattas, 2208 Bowditch street, was painfully injured when broken glass flew into his eyes, nearly destroying the sight of one eye. Mattas is an engineer on the Milwaukee and he was shunting cars in the yards. In making a flying switch the engine was jolted so violently that he was knocked against the throttle, and his spectacles broken. Pieces of the glass lodged in his eyes. For a time his sight was despaired of, but Dr. Bendixen, who attended him, was able to extricate the tiny pieces, and the injured optic will soon be well.

## Diamond Stolen From Physician.

Dr. E. F. Strohbehn, a well known local physician, was robbed of his diamond pin as he was boarding the Monticello train on the Milwaukee Saturday afternoon. The diamond, which the physician had placed in his tie, was worth more than \$200, he said, weighing two karats. "I was getting onto the train," Dr. Strohbehn told police, "when one of these fellows blocked the door. He was standing with his hands on each side of the door, apparently going in also. When I reached the door I touched him to move. Another man was right back of me and as I touched the young man ahead of me the other one bumped into me. 'I did not pay much attention to the incident until the conductor said to me: 'Those fellows who were on this car are 'dips.' Then I at once thought of my diamond stick pin and when I felt for it in my tie it was gone. I had it tightened in tightly with a screw on the end of the pin and it was through two thicknesses of the tie. I could not imagine them getting it without me feeling the jerk, but I did not." Dr. Strohbehn and another witness had seen three young men on the train and the other witness saw them leaving. They went rapidly up Perry street and to a small hotel nearby. Police were notified a few moments afterward and detectives were assigned to the case. An accurate description of the three men has been obtained. In addition to the diamond the "dips" secured 15 cents in change from the physician.

## Obituary Record.

Mrs. Adam Von Dresky died Saturday at the family residence, No. 10, Andressen flats. Death came suddenly and almost without warning, following a prolonged siege of nervous breakdown. The maiden name of the deceased was Anna Elizabeth Dealing. She was born in Buffalo, N. Y., April 12, 1864, and was 51 years old at the time of death. She was united in marriage to Adam Von Dresky in Muscatine, Iowa, Nov. 25, 1881. They resided there until five years ago when the family home was changed to Davenport. Surviving are the bereaved husband, Adam Von Dresky, and two sons, A. W. Von Dresky of Rock Island and George C. Von Dresky of Davenport. The funeral will be held Tuesday afternoon at 2 o'clock from the home of L. J. Rosemund, of Muscatine, and interment will take place in Greenwood cemetery.

## Dispute Over Ownership of Drive.

A dispute as to the ownership or control of the alley between Brady and Main streets and Fourth and Fifth has arisen as a result of the arrest of M. F. Heyer, the well known Brady street meat dealer, Saturday. Mr. Heyer was arrested on complaint of Street Commissioner Herman Edens, charging that he had obstructed the alley at the rear of his place. He was immediately released on bonds and then followed the question as to the ownership of the alley. Street Commissioner Edens was of the opinion that the alley was at least under the control of the city, but Mr. Heyer declares it is a private one, owned by the Catholic church and that he as one of the tenants, had the right to use it as he saw fit, in the event he did not violate any regulations for the preservation of the public health. City Attorney Lambach was of the opinion that the city had the right of control of the alley for a period of 10 years by some sort of an agreement. It is
